Position Overview:

We are looking for an Energy Economics Intern to join our business team and contribute to critical projects that drive the growth of our energy solutions. This role is ideal for someone with a strong academic background in Energy Economics who is eager to apply their skills in a real-world setting, specifically focusing on market analysis, pricing strategy, and financial modeling, and providing actionable insights to optimize our BaaS model, contributing to the overall success of our energy initiatives.

Key responsibilities:

- Energy Market Analysis and Trend Forecasting
- Financial Modeling and Project Feasibility Assessment
- Pricing Model Development and Implementation
- Sustainability & Impact Assessment
- Risk Assessment & Mitigation Strategies

Skills & Qualifications:

- Master's degree in Energy Economics or a related field.
- Experience in energy market analysis, pricing strategy, and financial modeling.
- Strong analytical skills with proficiency in data analysis tools and Excel.
- Knowledge of renewable energy markets, policy frameworks, and risk assessment.
- Strong communication skills and ability to translate complex data into actionable insights.
